

Immunization Clinics

Immunizations save lives. They are the best way to help protect you or your child from certain infectious diseases. They also help reduce the spread of disease to others and prevent epidemics. Most are given as shots. They are sometimes called vaccines, or vaccinations.

Immunizations are available at the Mary Greeley Medical Center [East Building](#), located at 1114 Duff Avenue, just across the street from the hospital.

Childhood Immunizations

Childhood Immunization Clinics are offered the second and fourth Tuesday of every month. Hours are 4:30 p.m. to 6:30 p.m. **Appointments are required.** Request an appointment below or call at 515-239-6730 or 800-529-4610. Please bring all immunization records. Most routine immunizations are free, but a \$10 donation is suggested for each.
